“

I have been studying English in Malta for the past five months. At first, I started studying in an Elementary class. I was really nervous because I couldn't speak well enough and I couldn't express myself. After a while, I got used to living in a foreign country so I started feeling more relaxed and confident.

I'm really happy with the school and the staff. They are extremely friendly and helpful at all times. In class, I have been learning a lot of grammar and vocabulary which I can then use in my speaking and writing. The listening exercises in class help me understand television and movies better. I also feel that after five months at IELTS I have become more fluent in my conversations outside school.
